

## "HARD SKIN" AND FOOT CALLUSES

Magic! Peel them right off without pain or soreness.

Don't suffer! A tiny bottle of Freeze costs but a few cents at any drug store. Apply a few drops on the toughened calluses or "hard skin" on bottom of feet, then lift those painful spots right off with fingers. When you peel off corns or calluses with Freeze the skin beneath is left pink and healthy and never sore, tender or even irritated.—Advertisement.

Garafed Tateosian, Chicago, Ill.

## Health

THE MAN WHO SUSPECTS that he has kidney trouble and neglects to take measures promptly for his relief is taking a dangerously unwise risk. If the kidneys are not properly performing their function of purifying the blood stream, waste products and poisonous acids remain in the system and cause nervousness, rheumatic pains, backache, languidness, sore muscles, swollen joints, stiffness, puffiness under eyes and other weakening symptoms.

## Foley Kidney Pills

restores and regulates the healthy and normal action of kidneys and bladder, bringing clean blood, sound nerves, clear head, good digestion, active brain, and all "found vigorous" health.  
M. W. Taylor, Calvert, Ala., writes: "My kidneys were in kidney trouble. I tried three different remedies, but none gave me such relief as Foley Kidney Pills."

## WHY SOCIETY WOMEN WASH THEIR OWN HAIR.

They do, not because it is a fad, but because they wish to obtain the greatest possible hair beauty and be sure they are not using anything harmful. They have found that in washing the hair it is never wise to use a make-shift, but is always advisable to use a preparation made for shampooing only. Many of our friends say they get the best results from a simple home-made Canthrox mixture. You can use this at a cost of about 3 cents a shampoo by getting some Canthrox from your druggist and dissolving a teaspoonful in a cup of hot water. This makes enough shampoo liquid to apply to all the hair instead of just the top of the head, as with most preparations. Dandruff, excess oil and dirt are dissolved and entirely disappear in the rinsing water. Your hair will be so fluffy that it will look much heavier than it is. Its luster and softness will also delight you.—Advertisement.

## TROOPS MUST BE SENT TO RUSSIA

Absolutely Essential That Forces Be Dispatched Immediately to Save Russ From German Yoke.

OLOVANNAYIA. Trans-Bailia, Wednesday, Sept. 4.—(By the Associated Press.)—If the allies intend to combat the German forces in Russia and save the Russians from falling under the German yoke, it is absolutely essential that troops be sent immediately to the present eastern front along the Volga. This is the opinion of General Gaido, the commander of the Czechoslovak fighting on the Volga has arrived here from the west.

Along the Volga the Czechoslovak units aided by newly organized Russian units the general said, are attempting to press westward against greatly superior enemy forces which are increased daily owing to the mobilization of released Austro-German prisoners. The Bolshevik Red guards, he added, would have stopped fighting but for these prisoners who were ordered to enter the Bolshevik ranks by Berlin when it became known there of the situation in Siberia. Berlin also fears untoward happenings in the Ukraine.

There is unbounded enthusiasm throughout Siberia owing to the deliverance from Bolshevik rule through the activities of the Czechs. East of the Ural mountains, volunteers are flocking to the Siberian railway to join the new Siberian army. Twenty thousand men already are under arms. The 1918 and 1919 classes have been ordered mobilized and are making a splendid response.

General Gaido said he believed it would be fatal if the present enthusiasm in Siberia was permitted to die out. In a few months Russia would possess an army capable of driving the Germans to the frontier if the allies would send troops to aid the Czechs in their work of re-organization.

## Loves Her Cows and Chickens Again

"I have had stomach trouble for twenty years and for the past year have eaten nothing but stale bread and rank hot water. Was too weak to do any kind of work. Six weeks ago I took the first dose of the Wonderful Remedy and am now doing all my housework besides looking after my chickens and milking two cows every day. Mine has been a wonderful recovery." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. McIntyre Drug Co., and druggists everywhere.—Advertisement.

## PIGEONS MADE DUGOUT PETS

Newly Arrived American Boys Deeply Interested in Work of Front Line Carriers.

BEHIND BRITISH LINES IN FRANCE, Sept. 6. (Correspondence of The Associated Press.)—For the American soldier newly arrived in the lines in France, there is always a great interest attaching to the now widespread use of carrier pigeons. Little crates of the birds are found in many a front line dugout, and they become great pets of the men, who watch their work with close interest.

Normally information in wartime is transmitted by wire, but sometimes occasion arises when the wires prove insufficient or break down altogether. Every front line unit must be prepared for such an emergency. So the pigeons are always kept handy, and from time to time are "tried out" to be sure that they are ready for their work.

The pigeons quickly become accustomed to shell fire and they will carry important messages through a heavy artillery barrage and through gas clouds when no other method of communication is practicable.

Pigeons were first employed by the British army in October, 1914, when an experimental shipment of fifty birds was brought to France. Their value was immediately recognized and the service rapidly grew to enormous proportions.

Birds Used for Two Purposes. Under present war conditions, the pigeons are most largely employed for two purposes—to bring back information from the front line trenches, and during an advance to bring messages from the advancing tanks and infantry. Generally speaking, a 100-mile flight is the outside limit for military purposes, even when messages are sent in duplicate. For distances of ten miles, single birds are relied on constantly, and there are very few failures.

In war, mobile lofts must take the

## The Branch House Man

This is one of the Swift & Company Branch House Men.

They are all pretty much alike in the way they feel toward their work—and that is what this ad is about.

They know that most people couldn't get such good meat promptly and in good condition if it weren't for the branch houses of which they are in charge.

They know that the branch house is one of the most important links in the chain of preparing and distributing meat for a nation.

They know that Swift & Company must have its branch houses run at the highest notch of usefulness; that even a Swift & Company branch house won't run itself, and that it is up to the branch house man to run it properly.

Any branch house man who doesn't see his work in this light is transferred to some other place with Swift & Company to which he is better adapted.

They are picked men, these branch house men. Every time you sit down to a steak or chop, or cut of roast, you can give a grateful thought to the whole crew of them.

And remember, in a general way, that everything that makes life smoother and more convenient for you is the result of the thoughtfulness and effort of a lot of people of whom you have never heard.

## Swift & Company, U. S. A.

## AUSTRIA AGAIN GERMAN CATSPA

Invitation to Belligerents to Consider a Non-binding Peace Discussion Probably Forced.

LONDON, Sept. 15.—"Austria again is Germany's catspaw," was the comment generally heard in London today when the news of Austria's invitation to the belligerents, "to confidential non-binding discussions at a neutral center" became public. It was not considered surprising that Austria should make a move to secure peace, for Vienna since the early days of September has been the scene of many conferences of the statesmen of the central powers and the Teutonic allied monarchs.

Week before last Admiral von Hintz, the German foreign minister, was there, and, besides having a long conference with Baron Burian, Austro-Hungarian foreign minister was received in audience by Emperor Charles. Likewise King Ferdinand of Bulgaria on his way back to Sofia had a conversation lasting an hour with Emperor Charles. Talaat Pasha, Turkish grand vizier, also has been touring around Vienna and Budapest and giving out interviews declaring that a military victory by either side is now impossible.

## Baker Praises Wonderful Dash Of U. S. Troops

LONDON, Monday, Sept. 16.—Newton D. Baker, American secretary of war, received the American correspondents this afternoon. He said that he would go to France for a few days but would return to London in about a week.

Mr. Baker was enthusiastic in his praise of the American troops in France. He described the wonderful dash of the American soldiers at St. Mihiel. Later, he saw German prisoners coming in and remarked that the American soldiers managed them as if they had been doing it all their lives.

"The smiles and spirit of the Americans even among the wounded," he said, "is most inspiring. Our casualties were remarkably light being for the most part minor wounds."

## Negro Marches German Major To the Rear

PARIS, Sept. 7. (Correspondence of The Associated Press.)—During the recent American advance from Chateau Thierry, a Red Cross captain met a negro American soldier marching towards Chateau Thierry, following closely behind a German major. The negro had transferred his pack from his own back to the back of the German officer and had also transferred the German major's monocle to his own eye. Thus equipped, the black warrior was parading triumphantly down the road. As he passed the Red Cross captain he called out: "I say, look here what this nigger done got!"

## VOLCANIC ERUPTION CAUSES TIDAL WAVE

TOKIO, Tuesday, Sept. 10. (By the Associated Press.)—During an eruption of a volcano on Urup island, one of the Kurile group, there caused a great tidal wave which overwhelmed a force of men at work refloating a sunken ship, drowning twenty-nine of them.

## Wash Out The Pores With Cuticura Soap

And have a clear, fresh complexion, free from pimples, redness, or roughness. Pimples are usually caused by clogging and irritation of the pores. Smear them with Cuticura Ointment. In a few minutes wash off with Cuticura Soap and hot water.

Sample Each Free by Mail. Address post-card: "Cuticura, Dept. 284, Boston." Sold everywhere. Size 3oz. Ointment 1/2 lb. and 5oz. Talcum 5oz.
